**LEAVE A LEGACY**  
—

## WHAT IS A LEGACY AND WHY IS IT IMPORTANT?

A legacy is an opportunity to ensure that **your commitment to a cause endures even when you have passed away**. It is a way of showing that the cause you hold dear is important enough to be supported even though you are no longer here. With your bequest, a part of you will always remain with us.

Legacies are very important for our Foundation: they allow us to give palliative care completely free of charge, to those who need our help.

Inheritance and charity legacies are tax-free for Cudeca: they are not subject to Inheritance and Donation Taxes.

**Your legacy will add life to the days of so many people.**

## HOW CAN I LEAVE A LEGACY TO CUDECA HOSPICE?

Making a will should never be a mere mechanical procedure, nor should it make you fearful or anxious. It is a meaningful deed that allows you to make a choice and then express your wishes in an official document.

Leaving part of your estate to Cudeca is like leaving it to a loved one or a relative. It just needs to be stipulated in your Will.

Should you decide to leave a legacy to our project and have any doubts at all, please get in touch with us and we will help you or your solicitor with any formalities that may be needed.

# WE WOULD LIKE TO MEET YOU

We are always delighted whenever we receive a legacy. We feel both very fortunate and humble at the same time because this is the most generous deed and a great responsibility for us.

We would like to meet the person behind the deed personally and discover what motivated them to collaborate with us by making such a welcome and useful gesture. But above all, we would like to be able to give them our thanks in person.

**Hence, when you make your legacy, please tell us more about yourself.** You may give us your name or remain anonymous. Send us a letter or a photo as you prefer. Or come along and meet us. We would be delighted to welcome you.

**Cudeca Hospice Team**

What is Cudeca Hospice?

**We are a non-profit organization that offers professional medical care to patients suffering from cancer or other advanced illnesses, as well as support to their families. All of which we give completely free of charge.**

We treat through the philosophy of palliative care, a field in which we have great experience and competence from which we give **our special kind of caring**. Not only do we treat the physical disease but we also treat the psychological, social and spiritual side of the illness. We work to make our patients feel dignified until the end.

Our activity began in 1992 thanks to the work and dedication of Joan Hunt. Born in England and living on the Costa del Sol, after the death of her husband from cancer, she decided to dedicate her life to helping others that were in the same situation. For this she founded CUDECA Hospice.

Today we continue offering our care totally free of charge to everyone who needs it. We know that we cannot add more days to life but with our care, we can add life to days.

To continue to care we need to count on the help of our members and collaborators, and the work of volunteers. Without them we could not continue - and neither without you!

---

## HOW CAN YOU HELP?

Become a member or a volunteer, organize an event, donate or buy in our charity shops, make a donation or leave a legacy. There are many ways you can help, all will be gratefully received.
